

Air pollution and health

Thurs 21 June 4 to 6 pm

(refreshments 3.30)

Learn more about the relationship between transport, air pollution and health in Winchester, get involved and make your views known.

St Peter's Pastoral Centre, Jewry Street, Winchester SO23 8RY

3.30 Refreshments, displays incl. posters by St Bede's school pupils

4.00 Speakers

- Councillor Jan Warwick, Winchester City and Hampshire County Councils
- The health impacts of air pollution, by Dr Matt Loxham*
- Facts about air quality in Winchester and what might be done

4.45 Workshops and activities run by partners, including:

- Winchester Air Quality Management Plan 2017: what is still to be done?
- Audit of the barriers to walking, starting with North Walls
- Workshop on the role of health professionals on air pollution
- Partner activities such as using air monitors; canvassing views of public, cycling opportunities and barriers. Details to be confirmed.

5.30 Closing session to identify next steps, with a glass of wine.

*Dr Matthew Loxham is a Biotechnology and Biological Sciences Research Council Future Leader Fellow at the Academic Unit of Clinical and Experimental Sciences in the Medicine Faculty of the University of Southampton. His major research interest is the link between the chemistry and the biological effects of particulate matter.

Free (voluntary collection on the day)

Will be popular so book your place at transport@winacc.org.uk
